Hi,

I am a freelance sound recordist with my own equipment  
1x 688 sound devices 12 channels mixer/recorder,  
2x sanken cos11 lapel mics  
2x sennheiser G3 radio mics sets,  
1 x 416 sennheiser shotgun mic and boom,  
1x directors' Sennheiser in ear monitoring,  
Tentacle synch box with connectors to most cameras  
Mac Book Pro with Logic X and Final Cut X

I have lots of experience recording on location, in all sorts of environments and most weather conditions. I have worked on documentaries, award winning short films and low budget features, TV series, commercials, corporate and live events. I have also worked in studio (ADR, Foley and sound design, lip synch etc).

I have experience working on sets of all sizes, sometimes in bizarre or challenging locations with both professional and unexperienced talent of all ages, putting everyone at ease.

I have been involved in filming all over the UK, some parts of Europe and USA.

I have experience recording (some) UK based animals including wild birds, cows, horses, other farm animals, wild foxes, house pets and hounds.

I'm familiar with many aspects of film production, so on shoots with very basic crew, where everyone has to be hands on, I am able to operate a camera , do DIT etc. and I happily and quickly learn a new workflow or piece of equipment.

I am used to working long hours, I am happy to be away for long periods of time and, when necessary, I am happy to slam it.

I am based in SE London and I'm happy to travel anywhere.

I hold a full UK driving licence and a valid Certificate of basic disclosure, which is available on request. This allows me to work with children and vulnerable people.

I speak Italian as well as English.

view example of work @ [www.marinaedit.com](http://www.marinaedit.com)

I was the main sound person on the following projects (unless otherwise specified) .
