13 Arundel Gardens - Notting Hill - London.W112LA

I am a camera trainee looking for an opportunity to really grow and expand my experience in the camera department.

Having attempted and accomplished shooting many of my own homemade productions amongst friends and family, most of my experience lies in working closely with various DOP's and production companies.

With family and friends in the film and advertising industry, I have always been around amazing storytellers and visual craftspeople, so inevitably I was drawn towards a career in creative media of some kind. I finished A levels at Hampstead Fine Arts in the summer of 2018, having won awards for my short films and with a wealth of experience working on professional productions, particularly in the camera department, which is reflected on my CV.

After leaving school, I travelled for a year throughout SE Asia and then New Zealand, working in various jobs along the way. Then I arrived back to covid England at the end of March. I have picked up a couple of camera department jobs since then, and have also been working as a barman at The Cow in Notting Hill in the meantime.

I am currently looking for an opportunity to really grow and expand my experience in a hard-working, team-based environment amongst creative minds, new opportunities and challenges. I'm enthusiastic, hard-working and love contributing towards a common goal.
