Assistant to the Location Director for BBC - Silent Witness

- General administrative work.
- Photographing and Documenting location details
- Creating Location Recce
- Managing location information to ensure no backtracking
- Making tea

Career Profile -

I am a highly motivated and dedicated professional with a strong passion for the technical side of the film industry, having worked in this field since the age of 16. My career began with a role alongside a Location Manager on the BBC series *Silent Witness*. During my A-Level studies, I further honed my skills by gaining work experience at Panavision in Leavesden, where I worked one day a week and during school holidays. Upon completing my education, I accepted a full-time position at Panavision, where I worked at both their Leavesden and Greenford locations.

Seeking to expand my knowledge of the industry, I transitioned to working on various productions, which provided me with invaluable experience across multiple departments on set and location. This exposure ultimately solidified my decision to pursue a career as a Grip.

I take pride in my strong understanding of set etiquette, my methodical approach to problem-solving, and my dedication to continuous learning. As a collaborative team player, I strive to contribute positively to every project I am involved in. I am grateful for the mentorship and support I've received from colleagues, and I am always eager to pay it forward by contributing to the development of others in the industry.

Education
