I have been working as a Focus Puller over 16 years now -the last 6 mainly in commercials in order to raise a family. Having begun my career when shooting 35mm and 16mm was still very much standard, I learnt the value of the strict film discipline and bring with me a wealth of experience and a calmness to tackle any situation. From the small independent doc to big budget commercials and features, I have shot all over the world in all manners of locations and conditions. I still relish the challenge and appreciate the opportunities working in this industry bring to me.

I've shot with all cameras and all formats from Aatons to Milleniums to Arri ST's to Alexa LF's and 35's to Phantoms to Reds and more....
