Professional Profile

I am a senior **Grip and Movi Operator** with **over 20 years of experience** in film, high-end TV drama, and major commercial productions. My career is founded on a **B.Sc. (Hons) in Media Technology** from the University of Sunderland, followed by **14 years** of technical experience as a Technical Operator, Camera Truck driver, Camera Trainee/2nd AC, and Gimbal Operator. For the last six years, I have established a strong reputation as a **B-camera Grip and Best Boy in TV drama**, while frequently leading units as a **Key Grip** for commercials and specialised film units.

Technical Expertise

I am **proficient in all dolly systems**, with extensive expertise in **Fisher and Chapman** equipment. My technical skillset includes the setup and operation of most **jib arms, telescopic cranes, and remote heads or gimbals**, and I am a specialist in **Movi technology and operating**. I hold an **HGV Class 2 Licence** and am available for hire with or without equipment, providing my own **van for transport** to ensure full mobility for any production.
